Sub:- KWA - Administration - Non Water Revenue Initiative - Forming State Level
Core Committee - Orders Issued - Regarding.

No: 9432/E1/2021/KWA

Dated: 13.08.2021

Read:-

Kerala Water Authority is functioning at present with the limited financial resources and major portion of its revenue is from the cost of treated water being supplied to the consumers across the state of Kerala. The rates fixed are low compared to the production costs as the tariff is fixed at discounted rates considering the fact that the majority amongst consumers belong to the poor sects of the society. Because of this, KWA is facing with severe financial crunch. In order to address this situation, it is decided to explore other avenues of making income utilising the available infrastucure as well as human resouorces.

In order to to formulate and plan various possible and pragmatic initiatives of Non-Water Revenue(NWR) in KWA, a core committe is being formed at state level. The committee shall meet frequently and explore the possibilities of fetching revenue to KWA from ources other than water supply. AS such, it is hereby ordered to form the committee with the following constitution.
