ORDER

The validity of each empanelment proceedings is two years from the date of issue. For every renewal of empanelment, the collection of prescribed documents along with the renewal fee is initiated three months in advance, with the objective of enabling proper verification and timely finalisation of the renewal process.

However, it has been observed that the renewal process is time consuming and the validity of some empanelment proceedings is nearing expiry, in order to ensure continuity of procurement activities related to water supply and sewerage projects, the validity of the following empanelment proceedings is hereby extended up to the date of issue of the respective renewal order.
